Index of Authors

Note. Short Communications are distinguished by c. Pages in *Proceedings of The Biochemical Society* are distinguished by p.

Adams, D. H. & Bowman, B. M. Studies on the properties of factors elevating the activity of mouse-plasma lactate dehydrogenase 477

Aiyar, A. S., Fatterpaker, P. & Sreenivasan, A. Lipid metabolism in liver injury caused by carbon tetrachloride in the rat 558

Albertini, A. *see* Ciferri, O. 82

Aldridge, W. N. *see* Poulsen, E. 182

Alpern, R. J. *see* Webster, G. R. 35

Anderson, F. B., Cunningham, W. L. & Manners, D. J. Studies on carbohydrate-metabolizing enzymes. 10. Barley β-glucosidases 30

Anderson, I. G., Briggs, T. & Haslewood, G. A. D. Comparative studies of 'bile salts'. 18. The chemistry of cyprinol 303

Annison, E. F. *see* Leng, R. A. 464

Ansell, G. B. & Spanner, S. The enzymic cleavage of the vinyl ether linkage in brain ethanolamine plasmalogen 19p

Ansell, G. B. *see also* Chojnacki, T. 18p

Artizzu, M. *see* Ugazio, G. 109

Ash, R. W., Pennington, R. J. & Reid, R. S. The effect of short-chain fatty acids on blood glucose concentration in sheep 353

Ashworth, J. M. & Kornberg, H. L. The utilization of DL-glycerate by *Escherichia coli* 27p

Astill, B. D., Fassett, D. W. & Roudabush, R. L. The metabolism of phenolic antioxidants. 4. The metabolites of gentisic acid in the dog 194

Atkinson, M. R., Jackson, J. F. & Morton, R. K. Adenosine triphosphate–nicotinamide mononucleotide adenylyltransferase of pig-liver nuclei. Extraction and purification of the enzyme 433

Bai, N.-K. *see* Barman, T. E. 555

Baines, N. J., Baird, J. B. & Elmore, D. T. The kinetics of hydrolysis of derivatives of arginine, homoarginine and ornithine by trypsin 470

Baird, J. B. *see* Baines, N. J. 470

Balazs, R. *see* Elliott, K. A. C. 42p

Ballard, F. J. & Oliver, I. T. Ketohexokinase, isoenzymes of glucokinase and glycogen synthesis from hexoses in neonatal rat liver 261

Bangham, A. D., Dingle, J. T. & Lucy, J. A. Studies on the mode of action of excess of vitamin A. 9. Penetration of lipid monolayers by compounds in the vitamin A series 133

Barclay, M. *see* Skipski, V. P. 374

Barker, S. B. Further studies on the ceric sulphate–arsenious acid reaction for the detection of various analogues of thyroxine 214

Barman, T. E., Bai, N.-K. & Thoai, N.-V. Studies on a herring-egg phosphoprotein 555

Barnsley, E. A. The metabolism of *S*-methyl-L-cysteine in the rat 9p

Barnsley, E. A., Thomson, A. E. R. & Young, L. Biochemical studies of toxic agents. 15. The biosynthesis of ethylmercapturic acid sulphoxide 588

Baron, D. N. *see* Bell, J. L. 8p; Todd, J. K. 7p

Bartley, W. *see* Polakis, E. S. 369

Barton-Wright, E. C. & Elliott, W. A. The pantothenic acid metabolism of rheumatoid arthritis 2p

Bell, J. L. & Baron, D. N. Intracellular distribution of isocitrate dehydrogenases 8p

Bell, J. L. *see also* Todd, J. K. 7p

Bergel, F. *see* Gilbert, D. A. 350

Bishop, D. H. L., Roche, C. & Nisman, B. Induction of alkaline phosphatase in a subcellular preparation from *Escherichia coli* 378

Bowman, B. M. *see* Adams, D. H. 477

Boyland, E. & Sims, P. Metabolism of polycyclic compounds. 23. The metabolism of pyrene in rats and rabbits 391

Braunsberg, H. & James, V. H. T. Studies on the uptake of steroid hormones by human tissues *in vitro* 15p

Bray, H. G., Caygill, J. C., James, S. P. & Wood, P. B. Formation of mercapturic acids. 5. Metabolism of some halogenoparaffins and nitroparaffins 127

Brenner, S. Recognition elements in control 21p

Briggs, T. *see* Anderson, I. G. 303

Bryce, G. F. & Rabin, B. R. The assay and reaction kinetics of leucine aminopeptidase from swine kidney 509

Bryce, G. F. & Rabin, B. R. The function of the metal ion in leucine aminopeptidase and the mechanism of action of the enzyme 513

Buck, A. T. *see* Threlfall, G. 6p

Bucke, C., Hallaway, M. & Morton, R. A. α-Tocopherolquinone from holly leaves 41p

Buddemeyer, E. *see* Hsu, J. M. 60

Bu'Lock, J. D., Hamilton, D. & Powell, A. J. Radiorespirometric study of the development of *Penicillium urticae* during fermentation 26p

Burton, P. & Lowenstein, J. M. The isolation of a complex of heavy meromyosin and adenine nucleotide 7c

Buttery, S. H. *see* Plackett, P. 201

Cairnie, A. B. *see* Threlfall, G. 6p

Index of Subjects

Note. Short Communications are distinguished by C. Pages in *Proceedings of The Biochemical Society* are distinguished by P.

Acetate, metabolism of, in the colourless alga, *Prototheca zopfii* (Callely, A. G. & Lloyd, D.) 483

Acetate, utilization of, and the turnover of citric acid-cycle components in pregnant sheep (Lindsay, D. B. & Ford, E. J. H.) 24

Acetobacter xylinum, origin and fate of triose phosphate in (White, G. A. & Wang, C. H.) 408

Acetylcholine, 'compartmentalization' of, in the cholinergic nerve synapse (Whittaker, V. P., Michaelson, I. A. & Kirkland, R. J. A.) 293

Acetylsalicylic acid, metabolism of, in the dog (Astill, B. D., Fassett, D. W. & Roudabush, R. L.) 194

Aconate, utilization of, by *Micrococcus* sp. (Cooper, R. A., Itiaba, K. & Kornberg, H. L.) 26P

cis-Aconitate, oxidation of, by isolated mitochondria (Chappell, J. B.) 225

Actinomycins synthesized by *Streptomyces antibioticus*, incorporation of sarcosine into (Ciferri, O., Albertini, A. & Cassani, G.) 82

N-Acylethanolamine lipids (Wren, J. J. & Holub, D. S.) 3P

Adenine nucleotide, isolation of a complex of heavy meromyosin and (Burton, P. & Lowenstein, J. M.) 7C

Adenosine triphosphatase, participation of, in the extrusion of granule proteins from the polymorphonuclear leucocyte (Woodin, A. M. & Wieneke, A. A.) 498

Adenosine triphosphate–lombricine phosphotransferase, kinetics of activation of, by magnesium ions (Gaffney, T. J. & O'Sullivan, W. J.) 177

Adenosine triphosphate–lombricine phosphotransferase, purification and properties of (Gaffney, T. J., Rosenberg, H. & Ennor, A. H.) 170

Adenosine triphosphate–nicotinamide mononucleotide adenylyltransferase of pig-liver nuclei (Atkinson, M. R., Jackson, J. F. & Morton, R. K.) 433

Adenosine [^{32}P]triphosphate of high specific activity, method for preparation of (Glynn, I. M. & Chappell, J. B.) 147

Adenosine triphosphate, participation of, in the extrusion of granule proteins from the polymorphonuclear leucocyte (Woodin, A. M. & Wieneke, A. A.) 498

Adenylate kinase, assay and distribution of, in human tissues (Todd, J. K., Bell, J. L. & Baron, D. N.) 7P

Aerobacter aerogenes, accumulation of pyruvate by, in the presence of aminopterin (Webb, M.) 24P

Aging in the rat and uptake of ascorbic acid by skin and bone marrow (Kanungo, M. S. & Patnaik, B. K.) 637

Alcohol dehydrogenase, yeast, reaction of, with iodoacetamide as determined with a silver–silver iodide electrode (Rabin, B. R., Ruiz Cruz, J., Watts, D. C. & Whitehead, E. P.) 539

Alcohol dehydrogenase, yeast, thiol groups of (Whitehead, E. P. & Rabin, B. R.) 532

Aldehyde oxidase, oxidation of vitamin A aldehydes to the corresponding acids by (Lakshmanan, M. R., Vaidyanathan, C. S. & Cama, H. R.) 569

Alga (*Prototheca zopfii*), colourless, metabolism of acetate in (Callely, A. G. & Lloyd, D.) 483

Amino acids and growth of the pregnant uterus (Williams, J. M. & Needham, D. M.) 489

Amino acids, aromatic, metabolism of, in sheep rumen (Scott, T. W., Ward, P. F. V. & Dawson, R. M. C.) 12

Amino acids, bound and free, in brain (Elliott, K. A. C., Dahl, D. R. & Balazs, R.) 42P

Amino acids, branched-chain, regulatory mechanisms in biosynthesis of (Umbarger, H. E.) 22P

Amino acids, estimation of (Frearson, P. M. & Kirby, K. S.) 578

Amino acids, free, specific radioactivities of, in rat brain after injection of uniformly labelled [^{14}C]glucose (Gaitonde, M. K.) 42P

Amino acids, transport of, and protein synthesis in the dystrophic retina (Reading, H. W. & Sorsby, A.) 38P

α-Aminoisobutyric acid, uptake of, by uterus (Williams, J. M. & Needham, D. M.) 489

Aminopterin, accumulation of pyruvate by *Aerobacter aerogenes* in the presence of (Webb, M.) 24P

Ammonia, effect of Telodrin on liberation and utilization of, in rat brain (Hathway, D. E. & Mallinson, A.) 51

α-Amylases, bacterial, action of, on starch granules (Walker, G. J. & Hope, P. M.) 398

Arginine, kinetics of hydrolysis of derivatives of, by trypsin (Baines, N. J., Baird, J. B. & Elmore, D. T.) 470

Arylsulphatases A and B, activity of, in fatty liver induced by carbon tetrachloride (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109

Ascorbic acid, uptake of, by skin and bone marrow and aging in the rat (Kanungo, M. S. & Patnaik, B. K.) 637

Aspergillus terreus, phenolic metabolites of mutants of (Curtis, R. F., Harries, P. C., Hassall, C. H. & Levi, J. D.) 43

Avidin, quenching of fluorescence of, by dinitrophenyl groups (Green, N. M.) 564

Azide, reactions of, with catalase (Nicholls, P.) 331

Azotobacter sp., metabolism of glyoxylate by (Morris, J. G.) 25P

Barley β-glucosidases (Anderson, F. B., Cunningham, W. L. & Manners, D. J.) 30

Barley, malted, hydrolysis of lichenin by enzyme preparations from (Cunningham, W. L. & Manners, D. J.) 596

Benzoic acid, formation of, in rumen of sheep (Scott, T. W., Ward, P. F. V. & Dawson, R. M. C.) 12

Benzyl chloride, detoxication of, by conjugation with glutathione in the locust (Cohen, A. J. & Smith, J. N.) 449

Betanin, metabolism of (Watson, W. C.) 3P

Bile, rat, excretion of foreign compounds in (Millburn, P., Smith, R. L. & Williams, R. T.) 5P

Bile salts, carp, isolation of cyprinol from (Anderson, I. G., Briggs, T. & Haslewood, G. A. D.) 303

Bile salts, effect of, on oxidative phosphorylation in liver mitochondria (Lee, M. J. & Whitehouse, M. W.) 17P

Bilirubin, inhibitors of conjugation of, in new-born infant's serum (Holton, J. B. & Lathe, G. H.) 6P

Bone marrow, uptake of ascorbic acid by, and aging in the rat (Kanungo, M. S. & Patnaik, B. K.) 637

Boron trifluoride, production of methoxy-substituted fatty acids as artifacts during esterification of unsaturated fatty acids with methanol containing (Lough, A. K.) 4C

Brain, bound and free amino acids in (Elliott, K. A. C., Dahl, D. R. & Balazs, R.) 42P

Brain, rat, acylation of lysolecithin by (Webster, G. R. & Alpern, R. J.) 35

Brain, rat, effect of Telodrin on liberation and utilization of ammonia in (Hathway, D. E. & Mallinson, A.) 51
Brain, rat, specific radioactivities of free amino acids in, after injection of uniformly labelled [^{14}C]glucose (Gaitonde, M. K.) 42P
Buttermilk, preparation of xanthine oxidase from (Gilbert, D. A. & Bergel, F.) 350

Calcium, participation of, in the extrusion of granule proteins from the polymorphonuclear leucocyte (Woodin, A. M. & Wieneke, A. A.) 498
Carbohydrate and fat metabolism, interrelationship of, in involuting mammary gland (McLean, P.) 271
Carbohydrate, metabolism of, in neonatal rat liver (Ballard, F. J. & Oliver, I. T.) 261
[^{14}C]Carbon dioxide, production of, from [^{14}C]acetate in pregnant sheep (Lindsay, D. B. & Ford, E. J. H.) 24
Carbon tetrachloride, changes in hydrolytic enzymes in fatty liver induced by (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Carbon tetrachloride, lipid metabolism in liver injury in the rat caused by (Aiyar, A. S., Fatterpaker, P. & Sreenivasan, A.) 558
β-Carotene, incorporation of [2-^{14}C]mevalonic acid lactone and $^{14}CO_2$ into, in developing leaves of monocotyledonous and dicotyledonous plants (Treharne, K. J., Mercer, E. I. & Goodwin, T. W.) 39P
Carp, isolation of cyprinol from bile salts of (Anderson, I. G., Briggs, T. & Haslewood, G. A. D.) 303
Catalase, reactions of, with azide (Nicholls, P.) 331
Cathepsin, activity of, in fatty liver induced by carbon tetrachloride (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Cations, allosteric inhibition by competition for (Wyatt, H. V.) 24P
Cerebral tissues, effect of polyionic substances or aggregates on the excitability of, electrically stimulated *in vitro* (McIlwain, H.) 442
Ceric sulphate–arsenious acid reaction for detection of various analogues of thyroxine (Barker, S. B.) 214
Chitin in a Cambrian fossil, *Hyolithellus* (Carlisle, D. B.) 1C
Chlorin separated from the urine of a congenitally porphyric patient (Chu, T. C. & Chu, E. J.-H.) 9C
1-Chloro-2,4-dinitrobenzene, assay of activity of 'glutathiokinase' in insects by reaction of reduced glutathione and (Cohen, A. J., Smith, J. N. & Turbert, H.) 457
Chlortetracycline, effect of, on the transfer of leucine and transfer ribonucleic acid to rat-liver ribosomes *in vitro* (Franklin, T. J.) 624
Cholesterol, intermediates of microbiological metabolism of (Whitmarsh, J. M.) 23P
Choline acetyltransferase, 'compartmentalization' of, in the cholinergic nerve synapse (Whittaker, V. P., Michaelson, I. A. & Kirkland, R. J. A.) 293
Cholinesterase, 'compartmentalization' of, in the cholinergic nerve synapse (Whittaker, V. P., Michaelson, I. A. & Kirkland, R. J. A.) 293
Chorismic acid, isolation and metabolism of (Gibson, M. I. & Gibson, F.) 248
Chorismic acid, purification and chemical studies of (Gibson, F.) 256
Chromatophores of *Rhodopseudomonas spheroides*, zinc–protoporphyrin chelatase in (Neuberger, A. & Tait, G. H.) 607
Chymotrypsinogen, iodination of (Glazer, A. N. & Sanger, F.) 92
Citrate, oxidation of, by isolated mitochondria (Chappell, J. B.) 225
Citric acid-cycle components in pregnant sheep, acetate utilization and turnover of (Lindsay, D. B. & Ford, E. J. H.) 24
Clostridium butyricum, action of α-amylase of, on starch granules (Walker, G. J. & Hope, P. M.) 398
Colpoda steinii, cyst wall of (Tibbs, J.) 27P
Coproporphyrinogen III, enzymic conversion of, into protoporphyrin IX (Porra, R. J. & Falk, J. E.) 69
Cortisone, effect of, on activity of liver hexokinase and glucokinase (Walker, D. G. & Rao, S.) 360
Cyprinol, chemistry of (Anderson, I. G., Briggs, T. & Haslewood, G. A. D.) 303
Cyprinol, nuclear-magnetic-resonance spectral study of (Cross, A. D.) 308
Cystinuria, canine, aetiology of (Treacher, R. J.) 494

Deoxyribonucleic acid–protein complexes, isolation of, from liver, spleen and tumour tissue (Frearson, P. M. & Kirby, K. S.) 578
Deoxyribonucleic acid, timing of synthesis of, in cell cycle of *Saccharomyces cerevisiae* (Williamson, D. H.) 25P
Deoxyribonucleoproteins, fractionation of, into acidic proteins and lysine-rich histones associated with deoxyribonucleic acid (Frearson, P. M. & Kirby, K. S.) 578
Detergents, effects of, on autolysis of ^{131}I-labelled rat thyroid homogenates (Pitt-Rivers, R.) 629
cis- and *trans*-Dihydrodiols, interconversion of, after their administration to animals (Hopkins, R. P., Lewis, D. A. & Young, L.) 7P
Dimethylnitrosamine, reaction of, with liver thiol groups *in vivo* (Craddock, V. M.) 33P
2,4-Dinitrophenol, effects of, on oxidations by mitochondria (Chappell, J. B.) 237
Dinitrophenyl groups, quenching of fluorescence of avidin by (Green, N. M.) 564

Enzyme biosynthesis, atmospheric control of, in facultative anaerobes (Gray, C. T.) 23P
Enzyme biosynthesis, regulation of, by induction and repression (Mandelstam, J.) 21P
Enzymes in *Mycobacterium smegmatis*, effects of iron deficiency and of zinc deficiency on activities of (Winder, F.G. & O'Hara, C.) 122
Erythrocyte preparations, chicken, effects of oxygen concentration on porphyrin biosynthesis in (Falk, J.E. & Porra, R. J.) 66
Erythrocyte, sickle, comparison of electrophoretic characteristics of the normal human erythrocyte and (Seaman, G.V.F. & Pethica, B.A.) 573
Escherichia coli, exchange properties of magnesium in ribosomes of (Rodgers, A.) 548
Escherichia coli, induction of alkaline phosphatase in a subcellular preparation from (Bishop, D. H. L., Roche, C. & Nisman, B.) 378
Escherichia coli, synthesis of ribosomes by a mutant of (Turnock, G. & Wild, D. G.) 32P
Escherichia coli, utilization of DL-glycerate by (Ashworth, J. M. & Kornberg, H. L.) 27P
Esterases in the fowl central nervous system (Poulsen, E. & Aldridge, W. N.) 182
Ethanolamine plasmalogen, brain, enzymic cleavage of vinyl ether linkage in (Ansell, G.B. & Spanner, S.) 19P
Ethylmercapturic acid sulphoxide, biosynthesis of (Barnsley, E. A., Thomson, A. E. R. & Young, L.) 588
Euglena gracilis, nature, distribution and synthesis of phytoquinones in (Threlfall, D. R. & Goodwin, T. W.) 40P

Fat and carbohydrate metabolism, interrelationship of, in involuting mammary gland (McLean, P.) 271
Fat, brown and yellow, in rats, fatty acids of (Chalvardjian A. M.) 518
Fat, depot, human, analysis of fatty acids of, by gas–liquid chromatography (Kingsbury, K. J., Morgan, D.M. & Heyes, T. D.) 140
Fatty acid, non-esterified, plasma concentration of, in hypothalamic-hyperphagic rats (Hales, C. N. & Kennedy, G. C.) 620

Fatty acids, methoxy-substituted, production of, as artifacts during the esterification of unsaturated fatty acids with methanol containing boron trifluoride (Lough, A. K.) 4C
Fatty acids of brown and yellow fat in rats (Chalvardjian, A. M.) 518
Fatty acids of human depot fat, analysis of, by gas–liquid chromatography (Kingsbury, K. J., Morgan, D. M. & Heyes, T. D.) 140
Fatty acids, phenyl-substituted, formation and metabolism of, in the ruminant (Scott, T. W., Ward, P. F. V. & Dawson, R. M. C.) 12
Fatty acids, short-chain, effect of, on blood glucose concentration in sheep (Ash, R. W., Pennington, R. J. & Reid, R. S.) 353
Flavan-3,4-diol tannin, stereochemistry of precursors of (Drewes, S. E. & Roux, D. G.) 343
3-Fluoromalate, effect of, on oxidation of glutamate by mitochondria (Chappell, J. B.) 237
Fossil (*Hyolithellus*), Cambrian, chitin in (Carlisle, D. B.) 1C
Fructose, incorporation of, into glycogen in rat-liver slices (Ballard, F. J. & Oliver, I. T.) 261
Fumarase, mitochondrial, kinetic behaviour of (Gutfreund, H. & Jones, E. A.) 208

Galactan of *Mycoplasma mycoides*, galactofuranose disaccharide from (Plackett, P. & Buttery, S. H.) 201
Galactofuranose disaccharide from galactan of *Mycoplasma mycoides* (Plackett, P. & Buttery, S. H.) 201
Gastric secretion, human, chromatographic studies of hydrolysates of (Schrager, J.) 41P
Gentisic acid, metabolites of, in the dog (Astill, B. D., Fassett, D. W. & Roudabush, R. L.) 194
Geodoxin, biosynthesis of, by *Aspergillus terreus* (Curtis, R. F., Harries, P. C., Hassall, C. H. & Levi, J. D.) 43
Gibberellic acid, effects of, on wheat endosperm (Rowsell, E. V. & Goad, L. J.) 11P
Gibberellic acid, growth changes in pea plants induced by, and effects on the concentrations of tissue lipids (Norcia, L. N., Evans, J. D., Faulkner, D. N. & Rohrbaugh, L. M.) 633
Gibberellic acid, release of hydrolytic enzymes from isolated wheat aleurone layers activated by (Rowsell, E. V. & Goad, L. J.) 12P
γ-Globulin, heterogeneity of peptide chains of (Cohen, S. & Porter, R. R.) 278
α-Glucan phosphorylase, liver, subcellular redistribution of, during alterations in glycogen content (Tata, J. R.) 284
Glucokinase, activity of, in neonatal rat liver (Ballard, F. J. & Oliver, I. T.) 261
Glucokinase, role of, in phosphorylation of glucose by rat liver (Walker, D. G. & Rao, S.) 360
Gluconate, dissimilation of, by *Acetobacter xylinum* (White, G. A. & Wang, C. H.) 408
Gluconeogenesis, inhibition of, by α-oxo acids (Krebs, H. A. & de Gasquet, P.) 149
Glucose, dissimilation of, by *Acetobacter xylinum* (White, G. A. & Wang, C. H.) 408
Glucose, effect of short-chain fatty acids on concentration of, in sheep blood (Ash, R. W., Pennington, R. J. & Reid, R. S.) 353
Glucose, evaluation of pathway for metabolism of, in *Acetobacter xylinum* (White, G. A. & Wang, C. H.) 424
Glucose 6-phosphate dehydrogenase, activity of, in involuting mammary gland (McLean, P.) 271
Glucose 6-phosphate dehydrogenase, preparation of, from baker's yeast (Ballard, F. J. & Oliver, I. T.) 261
Glucose, plasma concentration of, in hypothalamic-hyperphagic rats (Hales, C. N. & Kennedy, G. C.) 620
Glucose, role of glucokinase in phosphorylation of, by rat liver (Walker, D. G. & Rao, S.) 360
D-Glucose 6-*O*-sulphate, desulphation of, by microorganisms (Large, P. J., Lloyd, A. G. & Dodgson, K. S.) 12P
[^{14}C]Glucose, uniformly labelled, specific radioactivities of free amino acids in rat brain after injection of (Gaitonde, M. K.) 42P
Glucose utilization, changes in, during development of the lamb (Jarrett, I. G., Jones, G. B. & Potter, B. J.) 189
β-Glucosidases of barley (Anderson, F. B., Cunningham, W. L. & Manners, D. J.) 30
β-Glucuronidase, activity of, in fatty liver induced by carbon tetrachloride (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Glutamic acid, rat-brain, changes in, during acute intoxication with Telodrin (Hathway, D. E. & Mallinson, A.) 51
Glutamine, rat-brain, changes in, during acute intoxication with Telodrin (Hathway, D. E. & Mallinson, A.) 51
'Glutathiokinase', assay of activity of, in insects (Cohen, A. J., Smith, J. N. & Turbert, H.) 457
Glutathione *S*-aryltransferase, distribution of, in vertebrates (Grover, P. L. & Sims, P.) 603
Glutathione, enzymic conjugation of chloro compounds with, in locust and other insects (Cohen, A. J., Smith, J. N. & Turbert, H.) 457
Glutathione, metabolism of halogenated compounds in the locust, by conjugation with (Cohen, A. J. & Smith, J. N.) 449
Glutathione, role of pyridoxine in metabolism of (Hsu, J. M., Buddemeyer, E. & Chow, B. F.) 60
DL-Glycerate, utilization of, by *Escherichia coli* (Ashworth, J. M. & Kornberg, H. L.) 27P
Glycogen, liver, subcellular redistribution of α-glucan phosphorylase during alterations in content of (Tata, J. R.) 284
Glycogen, synthesis of, from hexoses in neonatal rat liver (Ballard, F. J. & Oliver, I. T.) 261
Glycoprotein, acidic, fraction from guinea-pig serum containing (Simkin, J. L., Skinner, E. R. & Seshadri, H. S.) 316
Glycosaminoglycans (mucopolysaccharides), histochemical and biochemical studies of (Szirmai, J. A.) 1P
Glycyl-L-serine *O*[^{35}S]-sulphate, metabolism of, in the rat (Tudball, N., Noda, Y. & Dodgson, K. S.) 439
Glyoxylate, metabolism of, by *Azotobacter* sp. (Morris, J. G.) 25P

Halogenoparaffins, metabolism of (Bray, H. G., Caygill, J. C., James, S. P. & Wood, P. B.) 127
Hapten, virus-specific, from vaccinia-infected sheep dermis (Williamson, J. D. & Rondle, C. J. M.) 13P
Herring-egg phosphoprotein (Barman, T. E., Bai, N.-K. & Thosi, N.-V.) 555
Hexokinase, liver, effect of insulin and cortisone on activity of (Walker, D. G. & Rao, S.) 360
Hexoses in neonatal rat liver, synthesis of glycogen from (Ballard, F. J. & Oliver, I. T.) 261
Histones, lysine-rich, fractionation of deoxyribonucleoproteins into acidic proteins and, associated with deoxyribonucleic acid (Frearson, P. M. & Kirby, K. S.) 578
Holly leaves, α-tocopherolquinone from (Bucke, C., Hallaway, M. & Morton, R. A.) 41P
Homoarginine, kinetics of hydrolysis of derivatives of, by trypsin (Baines, N. J., Baird, J. B. & Elmore, D. T.) 470
4-Hydroxybenzoic acid, production of, from chorismic acid (Gibson, F.) 256
D(−)-β-Hydroxybutyrate, metabolism of, in sheep (Leng, R. A. & Annison, E. F.) 464
3-Hydroxy-[21-^{14}C]-19-norpregna-1,3,5(10)-trien-20-one, synthesis of (Schulster, D., Whitehead, J. K. & Kellie, A. E.) 10P
Hypervitaminosis A, effects of, on cells and their organelles (Fell, H. B.) 35P

Hypothalamic-hyperphagic rats, plasma glucose, non-esterified fatty acid and insulin concentrations in (Hales, C. N. & Kennedy, G. C.) 620
Hypothalamus, distribution of peptidases from, in pregnant and non-pregnant dogs (Hooper, K. C.) 584

Insulin binding to tissue, significance of (Garratt, C. J.) 17P
Insulin, effect of, on activity of liver hexokinase and glucokinase (Walker, D. G. & Rao, S.) 360
Insulin, plasma concentration of, in hypothalamic-hyperphagic rats (Hales, C. N. & Kennedy, G. C.) 620
Interferon, calf, partial purification of (Davies, A.) 29P
Intestine, sheep, transport of lipids from, in lymph (Feliński, L., Garton, G. A., Lough, A. K. & Phillipson, A. T.) 154
Iodine, incorporation of, into chymotrypsinogen (Glazer, A. N. & Sanger, F.) 92
Iodine isotopes (^{125}I, ^{131}I), localization of protein-bound radioactive iodine in rat thyroid gland labelled with (Pitt-Rivers, R., Niven, J. S. F. & Young, M. R.) 205
Iodine, radioactive, protein-bound, localization of, in rat thyroid glands labelled with ^{125}I or ^{131}I (Pitt-Rivers, R., Niven, J. S. F. & Young, M. R.) 205
Iodoacetamide, reaction of yeast alcohol dehydrogenase with, as determined with a silver–silver iodide electrode (Rabin, B. R., Ruiz Cruz, J., Watts, D. C. & Whitehead, E. P.) 539
Iron deficiency, effects of, on activities of enzymes in *Mycobacterium smegmatis* (Winder, F. G. & O'Hara, C.) 122
Isocitrate dehydrogenases, intracellular distribution of (Bell, J. L. & Baron, D. N.) 8P
Isocitrate, oxidation of, by isolated mitochondria (Chappell, J. B.) 225
Isotopes, a micro-artificial rumen for experiments on compounds labelled with (Dawson, R. M. C., Ward, P. F. V. & Scott, T. W.) 9
Itaconate, utilization of, by *Micrococcus* sp. (Cooper, R. A., Itiaba, K. & Kornberg, H. L.) 26P

Ketohexokinase, activity of, in neonatal rat liver (Ballard, F. J. & Oliver, I. T.) 261
17α-Ketol side chain, characterization of steroids with (Monder, C.) 522
Ketosis, concentrations of nicotinamide coenzymes in biopsy samples of mammary gland from cows with (Kronfeld, D. S. & Raggi, F.) 219
Kidney, rat, 'compensatory hypertrophy' in (Threlfall, G., Cairnie, A. B., Taylor, D. M. & Buck, A. T.) 6P
Kidney, swine, assay and reaction kinetics of leucine aminopeptidase from (Bryce, G. F. & Rabin, B. R.) 509

Lactate dehydrogenase, mouse-plasma, factors elevating the activity of (Adams, D. H. & Bowman, B. M.) 477
Lactobacillus acidophilus, synthesis of pyrimidin-2-one deoxyribosides and their ability to support the growth of (Laland, S. G. & Serck-Hanssen, G.) 76
Layer chromatography of 17α-ketolic steroids (Monder, C.) 522
Leaves, developing, incorporation of [2-^{14}C]mevalonic acid lactone and $^{14}CO_2$ into sterol, β-carotene and phytol in, of monocotyledonous and dicotyledonous plants (Treharne, K. J., Mercer, E. I. & Goodwin, T. W.) 39P
Leucine aminopeptidase, assay and reaction kinetics of, from swine kidney (Bryce, G. F. & Rabin, B. R.) 509
Leucine aminopeptidase, function of metal ion in, and mechanism of action of the enzyme (Bryce, G. F. & Rabin, B. R.) 513
Leucine and transfer ribonucleic acid, effect of chlortetracycline on transfer of, to rat-liver ribosomes *in vitro* (Franklin, T. J.) 624
Leucocyte, polymorphonuclear, participation of calcium, adenosine triphosphate and adenosine triphosphatase in the extrusion of granule proteins from (Woodin, A. M. & Wieneke, A. A.) 498
(−)-Leuco-fisetinidin, stereochemistry of (Drewes, S. E. & Roux, D. G.) 343
(+)-Leuco-robinetinidin, stereochemistry of (Drewes, S. E. & Roux, D. G.) 343
Lichenin, hydrolysis of, by enzyme preparations from malted barley and *Rhizopus arrhizus* (Cunningham, W. L. & Manners, D. J.) 596
Lipid metabolism in liver injury caused by carbon tetrachloride in the rat (Aiyar, A. S., Fatterpaker, P. & Sreenivasan, A.) 558
Lipid monolayers, penetration of, by compounds in vitamin A series (Bangham, A. D., Dingle, J. T. & Lucy, J. A.) 133
Lipids, liver, analysis of, by thin-layer chromatography (Skipski, V. P., Peterson, R. F. & Barclay, M.) 374
Lipids, tissue, growth changes in pea plants induced by gibberellic acid and effects on the concentrations of (Norcia, L. N., Evans, J. D., Faulkner, D. N. & Rohrbaugh, L. M.) 633
Lipids, transport of, from sheep intestine in lymph (Feliński, L., Garton, G. A., Lough, A. K. & Phillipson, A. T.) 154
Lipoproteins, structural, of the mucosal cell (Green, C.) 543
Liver, fatty, carbon tetrachloride-induced, changes in hydrolytic enzymes in (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Liver α-glucan phosphorylase, subcellular redistribution of, during alterations in glycogen content (Tata, J. R.) 284
Liver injury in the rat caused by carbon tetrachloride, lipid metabolism in (Aiyar, A.S., Fatterpaker, P. & Sreenivasan, A.) 558
Liver nuclei, pig, adenosine triphosphate–nicotinamide mononucleotide adenylyltransferase of (Atkinson, M. R., Jackson, J. F. & Morton, R. K.) 433
Liver, rat, effect of vitamin A deficiency on activation of sulphate and its transfer to *p*-nitrophenol in (Subba Rao, K. & Ganguly, J.) 104
Liver, rat, role of glucokinase in the phosphorylation of glucose by (Walker, D. G. & Rao, S.) 360
Locust, enzymic conjugation of chloro compounds with glutathione in the (Cohen, A. J., Smith, J. N. & Turbert, H.) 457
Locust, metabolism of halogenated compounds by conjugation with glutathione in the (Cohen, A. J. & Smith, J. N.) 449
Lombricine kinase, kinetics of activation of, by magnesium ions (Gaffney, T. J. & O'Sullivan, W. J.) 177
Lombricine kinase, purification and properties of (Gaffney, T. J., Rosenberg, H. & Ennor, A. H.) 170
Lymph, sheep, proteins of (McDougall, E. I.) 160
Lymph, sheep, transport of lipids from intestine in (Feliński, L., Garton, G. A., Lough, A. K. & Phillipson, A. T.) 154
Lysolecithin, acylation of, by rat brain (Webster, G. & R. Alpern, R. J.) 35

Macroglobulin from pathological human serum, comparison of native and monomer forms of (McDougall, E. I. & Deutsch, H. F.) 163
Magnesium, absorption of, from small intestine of conscious sheep (Care, A. D. & van't Klooster, A. Th.) 16P
Magnesium, exchange properties of, in *Escherichia coli* ribosomes (Rodgers, A.) 548
Magnesium ions, function of, in the action of leucine aminopeptidase (Bryce, G. F. & Rabin, B. R.) 513
Magnesium ions, kinetics of activation of adenosine triphosphate—lombricine phosphotransferase by (Gaffney, T. J. & O'Sullivan, W. J.) 177

Malonate, effect of, on oxidation of glutamate by mitochondria (Chappell, J. B.) 237
6-α-Maltosylglucose, enzymic synthesis and properties of (French, D., Taylor, P. M. & Whelan, W. J.) 616
Mammary-gland biopsy samples from ketotic cows, nicotinamide–adenine nucleotide concentrations in (Kronfeld, D. S. & Raggi, F.) 219
Mammary gland, involuting, interrelationship of carbohydrate and fat metabolism in (McLean, P.) 271
Manganese ions, function of, in the action of leucine aminopeptidase (Bryce, G. F. & Rabin, B. R.) 513
Mercapturic acids, formation of, as metabolites of halogenoparaffins and nitroparaffins (Bray, H. G., Caygill, J. C., James, S. P. & Wood, P. B.) 127
Meromyosin, heavy, isolation of a complex of adenine nucleotide and (Burton, P. & Lowenstein, J. M.) 7C
Metal ion in leucine aminopeptidase, function of, and mechanism of action of the enzyme (Bryce, G. F. & Rabin, B. R.) 513
S-Methyl-L-cysteine, metabolism of, in the rat (Barnsley, E. A.) 9P
Methyl methanesulphonate, tracer studies of the metabolism of (Pillinger, D. J., Craig, A. W. & Jackson, H.) 43P
[2-^{14}C]Mevalonic acid, incorporation of $^{14}CO_2$ and, into plastoquinone in maize and barley seedlings (Griffiths, W. T., Threlfall, D. R. & Goodwin, T. W.) 40P
[2-^{14}C]Mevalonic acid lactone, incorporation of $^{14}CO_2$ and, into sterol, β-carotene and phytol in developing leaves of monocotyledonous and dicotyledonous plants (Treharne, K. J., Mercer, E. I. & Goodwin, T. W.) 39P
Micrococcus sp., utilization of aconate and itaconate by (Cooper, R. A., Itiaba, K. & Kornberg, H. L.) 26P
Microsomes, rat-liver, turnover of ribonucleic acid in subfractions of (Hallinan, T., Fleck, A. & Munro, H. N.) 32P
Mitochondria, effects of 2,4-dinitrophenol on oxidations by (Chappell, J. B.) 237
Mitochondria, isolated, oxidation of citrate, isocitrate and *cis*-aconitate by (Chappell, J. B.) 225
Mitochondria, kinetic behaviour of succinate oxidase and fumarase of (Gutfreund, H. & Jones, E. A.) 208
(+)-Mollisacacidin, stereochemistry of (Drewes, S. E. & Roux, D. G.) 343
Mucins, biochemistry and function of (Kent, P. W.) 1P
Mucopolysaccharides, acid, use of colloidal-iron method for, in electron microscopy (Curran, R. C. & Clark, A.E.) 2P
Mucopolysaccharides (glycosaminoglycans), histochemical and biochemical studies of (Szirmai, J. A.) 1P
Mucosal cell, structural lipoproteins of (Green, C.) 543
Muscle, pigeon and ox, phospholipids of (Davenport, J. B.) 116
Muscle, rat diaphragm, rate of turnover of messenger ribonucleic acid in (Manchester, K. L.) 5C
Mycobacterium smegmatis, effects of iron deficiency and of zinc deficiency on activities of enzymes of (Winder, F. G. & O'Hara, C.) 122
Mycoplasma mycoides, galactofuranose disaccharide from galactan of (Plackett, P. & Buttery, S. H.) 201

Nerve-ending particles ('synaptosomes'), synaptic vesicles from, separation of (Whittaker, V. P., Michaelson, I. A. & Kirkland, R. J. A.) 293
Nervous system, central, fowl, esterases in (Poulsen, E. & Aldridge, W. N.) 182
Nicotinamide–adenine dinucleotide (reduced) oxidase, inactivation of, in heart-muscle preparations (Redfearn, E. R. & King, T. E.) 29P
Nicotinamide–adenine nucleotides, concentrations of, in mammary biopsy samples from ketotic cows (Kronfeld, D. S. & Raggi, F.) 219
p-Nitrobenzyl chloride, assay of activity of 'glutathiokinase' in insects by reaction of reduced glutathione and (Cohen, A. J., Smith, J. N. & Turbert, H.) 457
p-Nitrobenzyl chloride, detoxication of, by conjugation with glutathione in the locust (Cohen, A. J. & Smith, J. N.) 449
Nitroparaffins, metabolism of (Bray, H. G., Caygill, J. C., James, S. P. & Wood, P. B.) 127
p-Nitrophenol, effect of vitamin A deficiency on activation of sulphate in rat liver, and its transfer to (Subba Rao, K. & Ganguly, J.) 104
Nuclei, pig-liver, adenosine triphosphate–nicotinamide mononucleotide adenylyltransferase of (Atkinson, M. R., Jackson, J. F. & Morton, R. K.) 433

Oat-coleoptile cell walls, uronic acid constituents of (Ray, P. M. & Rottenberg, D. A.) 646
[6,7-^{3}H$_2$]Oestrogens, preparation of (O'Donnell, V. J., Preedy, J. R. K. & Pearlman, W. H.) 527
Ornithine, kinetics of hydrolysis of derivatives of, by trypsin (Baines, N. J., Baird, J. B. & Elmore, D. T.) 470
Ornithine, metabolism of, by uterus (Williams, J. M. & Needham, D. M.) 489
Ovomucoid, action of ram-testes extract on carbohydrate of (Caygill, J. C. & Jevons, F. R.) 10P
O-αxo acids, inhibition of gluconeogenesis by (Krebs, H. A. & de Gasquet, P.) 149
Oxygen concentration, effects of, on porphyrin biosynthesis in chicken-erythrocyte preparations (Falk, J. E. & Porra, R. J.) 66
Oxygen concentration, effects of thiosulphate and, on tetrathionate oxidation by *Thiobacillus* species (Trudinger, P. A.) 640
Oxytocin, hypothalamic distribution of peptidases inactivating, in pregnant and non-pregnant dogs (Hooper, K. C.) 584

Pantothenic acid, metabolism of, in rheumatoid arthritis (Barton-Wright, E. C. & Elliott, W. A.) 2P
Pea plants, growth changes induced by gibberellic acid in, and effects on the concentrations of tissue lipids (Norcia, L. N., Evans, J. D., Faulkner, D. N. & Rohrbaugh, L. M.) 633
Penicillium urticae, radiorespirometric study of development of, during fermentation (Bu'Lock, J. D., Hamilton, D. & Powell, A. J.) 26P
Peptidases, hypothalamic, in pregnant and non-pregnant dogs (Hooper, K. C.) 584
Peptide chains of γ-globulin, heterogeneity of (Cohen, S. & Porter, R. R.) 278
Peptide, removal of *N*-terminal residue of, after transamination (Dixon, H. B. F.) 2C
Phenols, metabolites of, produced by *Aspergillus terreus* (Curtis, R. F., Harries, P. C., Hassall, C. H. & Levi, J. D.) 43
Phenoltetrabromophthaleindisulphonate, assay of activity of 'glutathiokinase' in insects by reaction of reduced glutathione and (Cohen, A. J., Smith, J. N. & Turbert, H.) 457
Phenylacetic acid, formation of, in rumen of sheep (Scott, T. W., Ward, P. F. V. & Dawson, R. M. C.) 12
Phenylpropionic acid, formation of, in rumen of sheep (Scott, T. W., Ward, P. F. V. & Dawson, R. M. C.) 12
Phosphatase, acid, activity of, in fatty liver induced by carbon tetrachloride (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Phosphatase, alkaline, induction of, in a subcellular preparation from *Escherichia coli* (Bishop, D. H. L., Roche, C. & Nisman, B.) 378
L-α-Phosphatidate phosphohydrolases in subcellular fractions of rat liver (Sedgwick, B. & Hübscher, G.) 14P
Phosphatidylethanolamine, analysis of, by mild hydrolysis (Davenport, J. B.) 116
[^{32}P]Phosphatidylethanolamine, methylation of natural and unnatural analogues of, by brain and liver tissue (Chojnacki, T., Korzybski, T. & Ansell, G. B.) 18P

6-Phosphogluconate dehydrogenase, activity of, in involuting mammary gland (McLean, P.) 271
Phospholipids of pigeon and ox skeletal muscle (Davenport, J. B.) 116
Phospholipids, quantitative analysis of, by thin-layer chromatography (Skipski, V. P., Peterson, R. F. & Barclay, M.) 374
Phosphoprotein, herring-egg (Barman, T. E., Bai, N.-K. & Thoai, N.-V.) 555
Phosvitin, herring-egg, isolation of (Barman, T. E., Bai, N.-K. & Thoai, N.-V.) 555
Phytol, incorporation of [2-^{14}C]mevalonic acid lactone and $^{14}CO_2$ into, in developing leaves of monocotyledonous and dicotyledonous plants (Treharne, K. J., Mercer, E. I. & Goodwin, T. W.) 39P
Phytoquinones, nature, distribution and synthesis of, in *Euglena gracilis* (Threlfall, D. R. & Goodwin, T. W.) 40P
Plastoquinone, incorporation of $^{14}CO_2$ and [2-^{14}C]mevalonic acid into, in maize and barley seedlings (Griffiths, W. T., Threlfall, D. R. & Goodwin, T. W.) 40P
Polyionic substances or aggregates and the excitability of cerebral tissues electrically stimulated *in vitro* (McIlwain, H.) 442
Polymorphonuclear leucocyte, participation of calcium, adenosine triphosphate and adenosine triphosphatase in the extrusion of granule proteins from (Woodin, A. M. & Wieneke, A. A.) 498
Polypeptide, synthetic, corticotrophin-like effects of (Landon, J., James, V. H. T. & Stamp, T. C. B.) 20P
Porphyria, congenital, chlorin from the urine of patient with (Chu, T. C. & Chu, E. J.-H.) 9C
Porphyrin, effects of oxygen concentration on biosynthesis of, in chicken-erythrocyte preparations (Falk, J. E. & Porra, R. J.) 66
Pregnancy, acetate utilization and turnover of citric acid-cycle components in sheep during (Lindsay, D. B. & Ford, E. J. H.) 24
Pregnancy, distribution of hypothalamic peptidases in (Hooper, K. C.) 584
Prephenic acid, production of, from chorismic acid (Gibson, F.) 256
[4-^{14}C]Progesterone, metabolism of, in the rabbit (Taylor, W.) 30P
[4-^{14}C]Progesterone, sex and species differences in 'conjugate' formation during metabolism *in vitro* of (Rao, L. G. S. & Taylor, W.) 30P
Protein, dietary content of, and metabolism of vitamin A (Deshmukh, D. S., Malathi, P. & Ganguly, J.) 98
Protein, plasma, factors influencing synthesis of, by liver (Gordon, A. H.) 18P
Protein synthesis and amino acid transport in the dystrophic retina (Reading, H. W. & Sorsby, A.) 38P
Proteins, acidic, fractionation of deoxyribonucleoproteins into, and lysine-rich histones associated with deoxyribonucleic acid (Frearson, P. M. & Kirby, K. S.) 578
Proteins, granule, participation of calcium, adenosine triphosphate and adenosine triphosphatase in extrusion of, from the polymorphonuclear leucocyte (Woodin, A. M. & Wieneke, A. A.) 498
Proteins of sheep lymph (McDougall, E. I.) 160
Protoporphyrin IX, enzymic conversion of coproporphyrinogen III into (Porra, R. J. & Falk, J. E.) 69
Prototheca zopfii, metabolism of acetate in (Callely, A. G. & Lloyd, D.) 483
Puromycin, effect of, on subcellular distribution of liver α-glucan phosphorylase (Tata, J. R.) 284
Pyrene, metabolism of, in rats and rabbits (Boyland, E. & Sims, P.) 391
Pyridoxine, role of, in glutathione metabolism (Hsu, J. M., Buddemeyer, E. & Chow, B. F.) 60
Pyrimidin-2-one deoxyribosides, synthesis of, and their ability to support the growth of *Lactobacillus acidophilus* (Laland, S. G. & Serck-Hanssen, G.) 76
Pyrophosphate-exchange reactions, amino acid-dependent, participation of polyribonucleotide 'allosteric effector' in control of (Hele, P.) 9P
Pyruvate, accumulation of, by *Aerobacter aerogenes* in the presence of aminopterin (Webb, M.) 24P
Pyruvic acid, rat-brain, changes in, during acute intoxication with Telodrin (Hathway, D. E. & Mallinson, A.) 51

Ranol, chemistry of (Haslewood, G. A. D.) 309
Ranol tetra-acetate, nuclear-magnetic-resonance and mass-spectral analysis of (Cross, A. D.) 314
Reticulocytes, rabbit, fractionation of ribosomal ribonucleic acid from (Cohn, P.) 31P
Retina, dystrophic, protein synthesis and amino acid transport in (Reading, H. W. & Sorsby, A.) 38P
Retinoic acid and reproduction (Thompson, J. N. & Howell, J. McC.) 37P
Rheumatoid arthritis, pantothenic acid metabolism in (Barton-Wright, E. C. & Elliott, W. A.) 2P
Rhizopus arrhizus, hydrolysis of lichenin by enzyme preparations from (Cunningham, W. L. & Manners, D. J.) 596
Rhodopseudomonas spheroides, zinc–protoporphyrin chelatase in chromatophores of (Neuberger, A. & Tait, G. H.) 607
Ribonuclease, activity of, in fatty liver induced by carbon tetrachloride (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Ribonucleic acid, effect of, on induction of alkaline phosphatase in a subcellular preparation from *Escherichia coli* (Bishop, D. H. L., Roche, C. & Nisman, B.) 378
Ribonucleic acid, messenger, in rat diaphragm muscle, rate of turnover of (Manchester, K. L.) 5C
Ribonucleic acid, messenger, regulation of synthesis of (Gros, F.) 21P
Ribonucleic acid, ribosomal, fractionation of, from rabbit reticulocytes (Cohn, P.) 31P
Ribonucleic acid, transfer, effect of chlortetracycline on the transfer of leucine and, to rat-liver ribosomes *in vitro* (Franklin, T. J.) 624
Ribonucleic acid, turnover of, in subfractions of rat-liver microsomes (Hallinan, T., Fleck, A. & Munro, H. N.) 32P
Ribosomes, exchange properties of magnesium in, of *Escherichia coli* (Rodgers, A.) 548
Ribosomes, rat-liver, effect of chlortetracycline *in vitro* on the transfer of leucine and transfer ribonucleic acid to (Franklin, T. J.) 624
Ribosomes, synthesis of, by *Escherichia coli* mutant (Turnock, G. & Wild, D. G.) 32P
Rumen, micro-, artificial, for isotopic experiments (Dawson, R. M. C., Ward, P. F. V. & Scott, T. W.) 9
Rumen, sheep, degradation of starch granules by amylolytic bacteria from (Walker, G. J. & Hope, P. M.) 398
Rumen, sheep, formation of phenyl-substituted fatty acids in (Scott, T. W., Ward, P. F. V. & Dawson, R. M. C.) 12

Saccharomyces cerevisiae, changes in structure and enzyme activity of, in response to changes in the environment (Polakis, E. S., Bartley, W. & Meek, G. A.) 369
Saccharomyces cerevisiae, timing of deoxyribonucleic acid synthesis in cell cycle of (Williamson, D. H.) 25P
Saliva, human, chromatographic studies of hydrolysates of (Schrager, J.) 41P
Sarcosine, incorporation of, into actinomycins synthesized by *Streptomyces antibioticus* (Ciferri, O., Albertini, A. & Cassani, G.) 82
Serum, human, pathological, comparison of native and monomer forms of macroglobulin from (McDougall, E. I. & Deutsch, H. F.) 163

Shark (*Carcharias ellioti* Day), determination of ubiquinone and tocopherol in tissues of (Nazir, D. J. & Magar, N. G.) 268
Shikimic acid, formation of chorismic acid from, by cell extracts (Gibson, M. I. & Gibson, F.) 248
Sickle cell, comparison of electrophoretic characteristics of normal human erythrocyte and (Seaman, G. V. F. & Pethica, B. A.) 573
Skin, uptake of ascorbic acid by, and aging in the rat (Kanungo, M. S. & Patnaik, B. K.) 637
Starch granules, degradation of, by amylolytic bacteria from sheep rumen (Walker, G. J. & Hope, P. M.) 398
Starvation, effect of, on plasma concentrations of xanthophyll in the sheep (Patterson, D. S. P.) 39P
Stearic acid, transport of, in sheep lymph (Feliński, L., Garton, G. A., Lough, A. K. & Phillipson, A. T.) 154
Steroid hormones, uptake of, by human tissues *in vitro* (Braunsberg, H. & James, V. H. T.) 15P
Steroids with 17α-ketol side chain, characterization of (Monder, C.) 522
Sterol, incorporation of [2-^{14}C]mevalonic acid lactone and $^{14}CO_2$ into, in developing leaves of monocotyledonous and dicotyledonous plants (Treharne, K. J., Mercer, E. I. & Goodwin, T. W.) 39P
Streptococcus bovis, action of α-amylase of, on starch granules (Walker, G. J. & Hope, P. M.) 398
Streptomyces antibioticus, incorporation of sarcosine into actinomycins synthesized by (Ciferri, O., Albertini, A. & Cassani, G.) 82
Succinate oxidase, mitochondrial, kinetic behaviour of (Gutfreund, H. & Jones, E. A.) 208
Succinate, potentiometric measurement of ferricyanide reduction by, in mitochondrial preparations (Whittaker, P. A. & Redfearn, E. R.) 28P
Suggestions and instructions to authors 1
Sulphate, effect of vitamin A deficiency on activation of, and on its transfer to *p*-nitrophenol in rat liver (Subba Rao, K. & Ganguly, J.) 104
Synaptic vesicles from nerve-ending particles ('synaptosomes'), separation of (Whittaker, V. P., Michaelson, I. A. & Kirkland, R. J. A.) 293

Telodrin, effect of, on liberation and utilization of ammonia in rat brain (Hathway, D. E. & Mallinson, A.) 51
Tetrathionate oxidation by *Thiobacillus* species, effects of thiosulphate and oxygen concentration on (Trudinger, P. A.) 640
Thalidomide, biological activity of metabolites of (Fabro, S., Schumacher, H., Smith, R. L., Stagg, R. B. L. & Williams, R. T.) 5P
Thiobacillus species, effects of thiosulphate and oxygen concentration on tetrathionate oxidation by (Trudinger, P. A.) 640
Thiol groups of yeast alcohol dehydrogenase (Whitehead, E. P. & Rabin, B. R.) 532
Thiosulphate, effects of oxygen concentration and, on tetrathionate oxidation by *Thiobacillus* species (Trudinger, P. A.) 640
Thyroid glands, rat, localization of protein-bound radioactive iodine in, labelled with ^{125}I or ^{131}I (Pitt-Rivers, R., Niven, J. S. F. & Young, M. R.) 205
Thyroid homogenates, rat, ^{131}I-labelled, effects of detergents on autolysis of (Pitt-Rivers, R.) 629
Thyroxine, ceric sulphate–arsenious acid reaction for detection of analogues of (Barker, S. B.) 214
Tissue homogenizer, modified, construction of (Webster, G. R. & Smith, A. T.) 64
Tocopherol in tissues of shark (*Carcharias ellioti* Day), determination of (Nazir, D. J. & Magar, N. G.) 268
α-Tocopherolquinone from holly leaves (Bucke, C., Hallaway, M. & Morton, R. A.) 41P
α-*N*-Toluene-*p*-sulphonyl-L-arginine methyl ester, kinetics of hydrolysis by trypsin of (Baines, N. J., Baird, J. B. & Elmore, D. T.) 470
3,3′,5-Tri-iodo-L-thyronine, effect of, on subcellular distribution of liver α-glucan phosphorylase (Tata, J. R.) 284
Triose phosphate, origin and fate of, in *Acetobacter xylinum* (White, G. A. & Wang, C. H.) 408
Trypsin, kinetics of hydrolysis of derivatives of arginine, homoarginine and ornithine by (Baines, N. J., Baird, J. B. & Elmore, D. T.) 470
L-Tyrosine *O*-sulphate, deamination of, by rat tissues *in vitro* (Flanagan, T. H. & Rose, F. A.) 13P

Ubiquinone, determination of, in tissues of shark (*Carcharias ellioti* Day) (Nazir, D. J. & Magar, N. G.) 268
Uricase, activity of, in fatty liver induced by carbon tetrachloride (Ugazio, G., Artizzu, M., Pani, P. & Dianzani, M. U.) 109
Uridine diphosphate transglucuronylase, inhibition of, by thiol reagents (Storey, I. D. E.) 15P
Uridine diphosphate transglucuronylase, mouse-liver, differences in behaviour of, towards *o*-aminophenol and *p*-nitrophenol as substrates (Storey, I. D. E.) 16P
Uronic acid constituents of oat-coleoptile cell walls (Ray, P. M. & Rottenberg, D. A.) 646
Uterus, pregnant, amino acids and growth of (Williams, J. M. & Needham, D. M.) 489

Vertebrates, distribution of glutathione *S*-aryltransferase in (Grover, P. L. & Sims, P.) 603
Vitamin A acid and reproduction (Thompson, J. N. & Howell, J. McC.) 37P
Vitamin A aldehyde in fowl blood in relation to sex and maturity (Plack, P. A., Miller, W. S. & Ward, C. M.) 38P
Vitamin A aldehydes, oxidation of, to the corresponding acids by aldehyde oxidase from different species (Lakshmanan, M. R., Vaidyanathan, C. S. & Cama, H. R.) 569
Vitamin A deficiency, effect of, on activation of sulphate and its transfer to *p*-nitrophenol in rat liver (Subba Rao, K. & Ganguly, J.) 104
Vitamin A, dietary protein content and metabolism of (Deshmukh, D. S., Malathi, P. & Ganguly, J.) 98
Vitamin A, modes of action of (Pitt, G. A. J.) 35P
Vitamin A, penetration and stabilization of biological membranes by (Dingle, J. T.) 36P
Vitamin A series, penetration of lipid monolayers by compounds in (Bangham, A. D., Dingle, J. T. & Lucy, J. A.) 133

Xanthine oxidase, preparation of, from buttermilk (Gilbert, D. A. & Bergel, F.) 350
Xanthinuria, enzyme defect in (Watts, R. W. E., Engelman, K., Klinenberg, J. R. Seegmiller, J. E. & Sjoerdsma, A.) 4P
Xanthophyll, effect of starvation on plasma concentration of, in the sheep (Patterson, D. S. P.) 39P

Yeast alcohol dehydrogenase, reaction of, with iodoacetamide as determined with a silver–silver iodide electrode (Rabin, B. R., Ruiz Cruz, J., Watts, D. C. & Whitehead, E. P.) 539
Yeast alcohol dehydrogenase, thiol groups of (Whitehead, E. P. & Rabin, B. R.) 532

Zinc deficiency, effects of, on activities of enzymes in *Mycobacterium smegmatis* (Winder, F. G. & O'Hara, C.) 122
Zinc-protoporphyrin chelatase in chromatophores of *Rhodopseudomonas spheroides* (Neuberger, A. & Tait, G. H.) 607
